

Lesson: Force

Did I Do It Like an Architech?				
<i>Did I Meet the Project Goals/Criteria?</i>		Not Yet	Starting to	Yes!
	I pushed the furniture as much I can with the help of my friend.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	I pushed as well as the furniture was pulled by my friend to complete the task of changing its position.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	I maximized the strength with my friend to win the game of Tug of War against the other group of students in my school.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Was I participating in the Class?</i>		Not Yet	Starting to	Yes!
	I asked thoughtful questions and defined more than one problem.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	I developed and used models that met all of the criteria.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	I planned the design carefully and carried out the task of placing the furniture on the right place.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<i>How did I work with my group members?</i>		Not Yet	Starting to	Yes!
	I listened carefully to others' ideas, asking their opinions. I took turns and made sure everyone was sharing.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	I told others my ideas and I made sure I	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	didn't do all the talking.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	I helped solve problems that came up in our group and was willing to compromise when things didn't go my way.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Time to think about what I learned.

How did you use the exploration with materials to help you make your design? Think about the properties of the materials you used.

What would you do differently next time? How would you make your design even better?

What questions do you have about the process of planning, designing, testing, and redesigning?
